Service Level Agreement (SLA)

Between: i4nnova Ltd ("Provider")

And: [Taxpayer Name] ("Client")

Effective Date: [Date]

1. Scope of Service

The Provider shall supply an e-invoicing service that facilitates the transmission, validation, and digital signing of tax invoices between the Client's ERP system and the National Revenue Authority (NRS) in compliance with [MBS/FIRS] standards.

2. Service Availability (Uptime)

The Provider guarantees a **Monthly Uptime Percentage of 99.9%**.

- **Maintenance Windows:** Scheduled maintenance will occur between [e.g., 02:00 AM and 04:00 AM WAT] on Sundays. Clients will be notified 48 hours in advance.
- **Exclusions:** Downtime caused by the NRS API (government side) or the Client's internet service provider is excluded from this guarantee.

3. Performance & Response Times

The following table outlines the priority levels for technical issues:

Priority Level	Description	Response Time	Resolution Goal
P1 - Critical	Middleware is down; no invoices can be processed.	< 1 Hour	4 Hours
P2 - High	Service is up, but a major feature (e.g., Digital Signing) is failing.	< 4 Hours	12 Hours
P3 - Medium	Intermittent errors or dashboard reporting issues.	< 12 Hours	2 Business Days

Priority Level	Description	Response Time	Resolution Goal
P4 - Low	General inquiries or cosmetic UI issues.	< 24 Hours	5 Business Days

4. Data Security & Compliance

The Provider agrees to maintain the following security standards throughout the term of this agreement:

- **Data Encryption:** All data in transit shall be encrypted via TLS 1.2+, and data at rest shall be encrypted using AES-256.
- **Compliance:** Maintain active compliance with NDPA (Nigeria Data Protection Act) and ISO 27001 standards.
- **Audit Rights:** The Client or the NRS has the right to request a summary of the most recent VAPT (Vulnerability Assessment and Penetration Testing) report.

5. Disaster Recovery (DR)

- **Data Backups:** Invoices and logs are backed up every [e.g., 6 hours] to a geographically separate availability zone.
- **RTO/RPO:** The Recovery Time Objective (RTO) is 4 hours, and the Recovery Point Objective (RPO) is 6 hours.

6. Client Responsibilities

- The Client must ensure their ERP system provides data in the agreed-upon format (JSON/XML).
- The Client is responsible for the accuracy of the tax data sent to the E-Invoice solution.
- The Client must maintain secure credentials for accessing the E-Invoice portal.
